

To,
M/s Saint Gobain Gyproc India Pvt Ltd
Kolkata

Date :- 08th August 2018

IBIS Hotel, New Town Kolkata comprising of 189 Rooms on 2nd to 8th Floors, All the internal walls are made of Saint - Gobain Gyproc India Pvt Ltd (Gyproc) drywalls of difference type Dry wall system was used to construct Room to Room Partition wall, Corridor wall .

We appreciate Saint-Gobain Team and their support in every stage of project starting from design solution to Drywall execution. We introduced Dry Wall as alternate material to solid masonry to Drywall which benefits received by using drywalls instead of conventional wall construction can be summarized as below:-

1. **Saving of Water** – Water Saving of 3.9 lac liter which is equivalent to requirement of 19 houses for 1 month
2. **Structural Cost Saving** – The structure was designed considering the weight of drywall which derived considerable saving quantity of steel in column and Beam.
3. **Dead load saving** – Drywall has saved 1245 MT due to its light weight.
4. **Vertical Lifting Saving** – Due to lightweight material we could save approx. Rs.18 Lacs in vertical lifting in whole project.

Usage of Drywall has provided some other benefits like

1. Flexibility in repairing in case of need.
2. Heat and Sound insulation is achieved far better than block work.
3. Future alterations of walls are very easy and faster.

We appreciate Saint Gobain Gyproc Team and their support in every stage of project starting from design solution to completion of Drywall execution.

We wish them success in their future projects and recommend drywall as a modern construction technique for internal walls.

With best Wishes

Project Manager
