M/S Saint Gobain Gyproc India Pvt Ltd

Mahamana Pandit Madan Mohan Malaviya Cancer Hospital (By TATA Group) is a hospital project situated in Varanasi comprising of 352 beds (50168 Sq.Mtr). All the internal walls are made of Saint Gobain Gyproc drywalls of different type. Saint Gobain has designed the drywalls and provided technical support on site.

Time Saving - Due to drywall system and support we could complete the project in record time – 10 months

We appreciate Saint Gobain Gyproc team and their support in every stage of project starting from concept to conception.

For Narsi,

Project Head
