

Description: - Gyproc® Joint Paper Tape

**Characteristics:** Gyproc® joint paper tape has center crease, chamfered edges and spark perforation, for easy use in all joints. It is manufactured from cross fibered paper which provides excellent crack-resistance.

**Application:** - Gyproc® joint paper tape designed for reinforcing vertical, horizontal joints and for internal and external corner joints.

| Test Parameter                      | Specification |
|-------------------------------------|---------------|
| Length (m)                          | 90±0.5        |
| Width (mm)                          | 50±1          |
| Thickness (mm)                      | 0.2±0.01      |
| Weight of Paper (G/m <sup>2</sup> ) | 130±5         |
| Tensile Strength (N/50x200mm)       | Length : ≥350 |
| Perforations                        | Visual        |
| Position of centered folding        | Visual        |
