# The Magic Of **Blue**

**Ceilings are beautiful!  
They evoke emotions!**

They are a manifestation of our dream to build beautiful things and inspire us to reach those goals as well.

Hence, we love the Ceilings that we create with so much passion and thought.

And behind these beautiful ceilings lies the core of our engineering.

We commit ourselves in a relentless pursuit of bringing the best technology and innovation in the quality of steel, robustness, flexibility and in ways the product components can be optimized to save time & increase efficiency. We use every opportunity to create new standards in design, quality and engineering, ensuring that it delivers uncompromising performance in any situation“.”

**With this pursuit in mind we present GypFrame® PRIMA.  
Made with The Blue Metal Technology.**

Sculpted from  
the Strongest Steel  
for ceiling frames

Designed with  
Laser Precision

Passed through

With **GypFrame® PRIMA**, you can finish  
your ceiling Framing up to 40% faster. What it simply means is

**Same Time... Same Labor... More & More Ceilings!**

## WHY CHOOSE GYPFRAME® PRIMA?

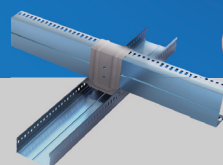

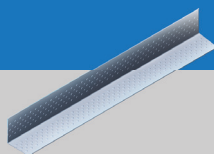

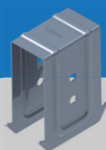

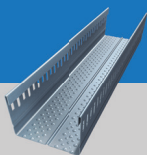

Lesser components  
**Faster Installation**

An all new  
**CLICK Mechanism**  
Further easing the  
installation process

Interchangeable  
components help to  
**Reducing Wastage  
up to 0%**

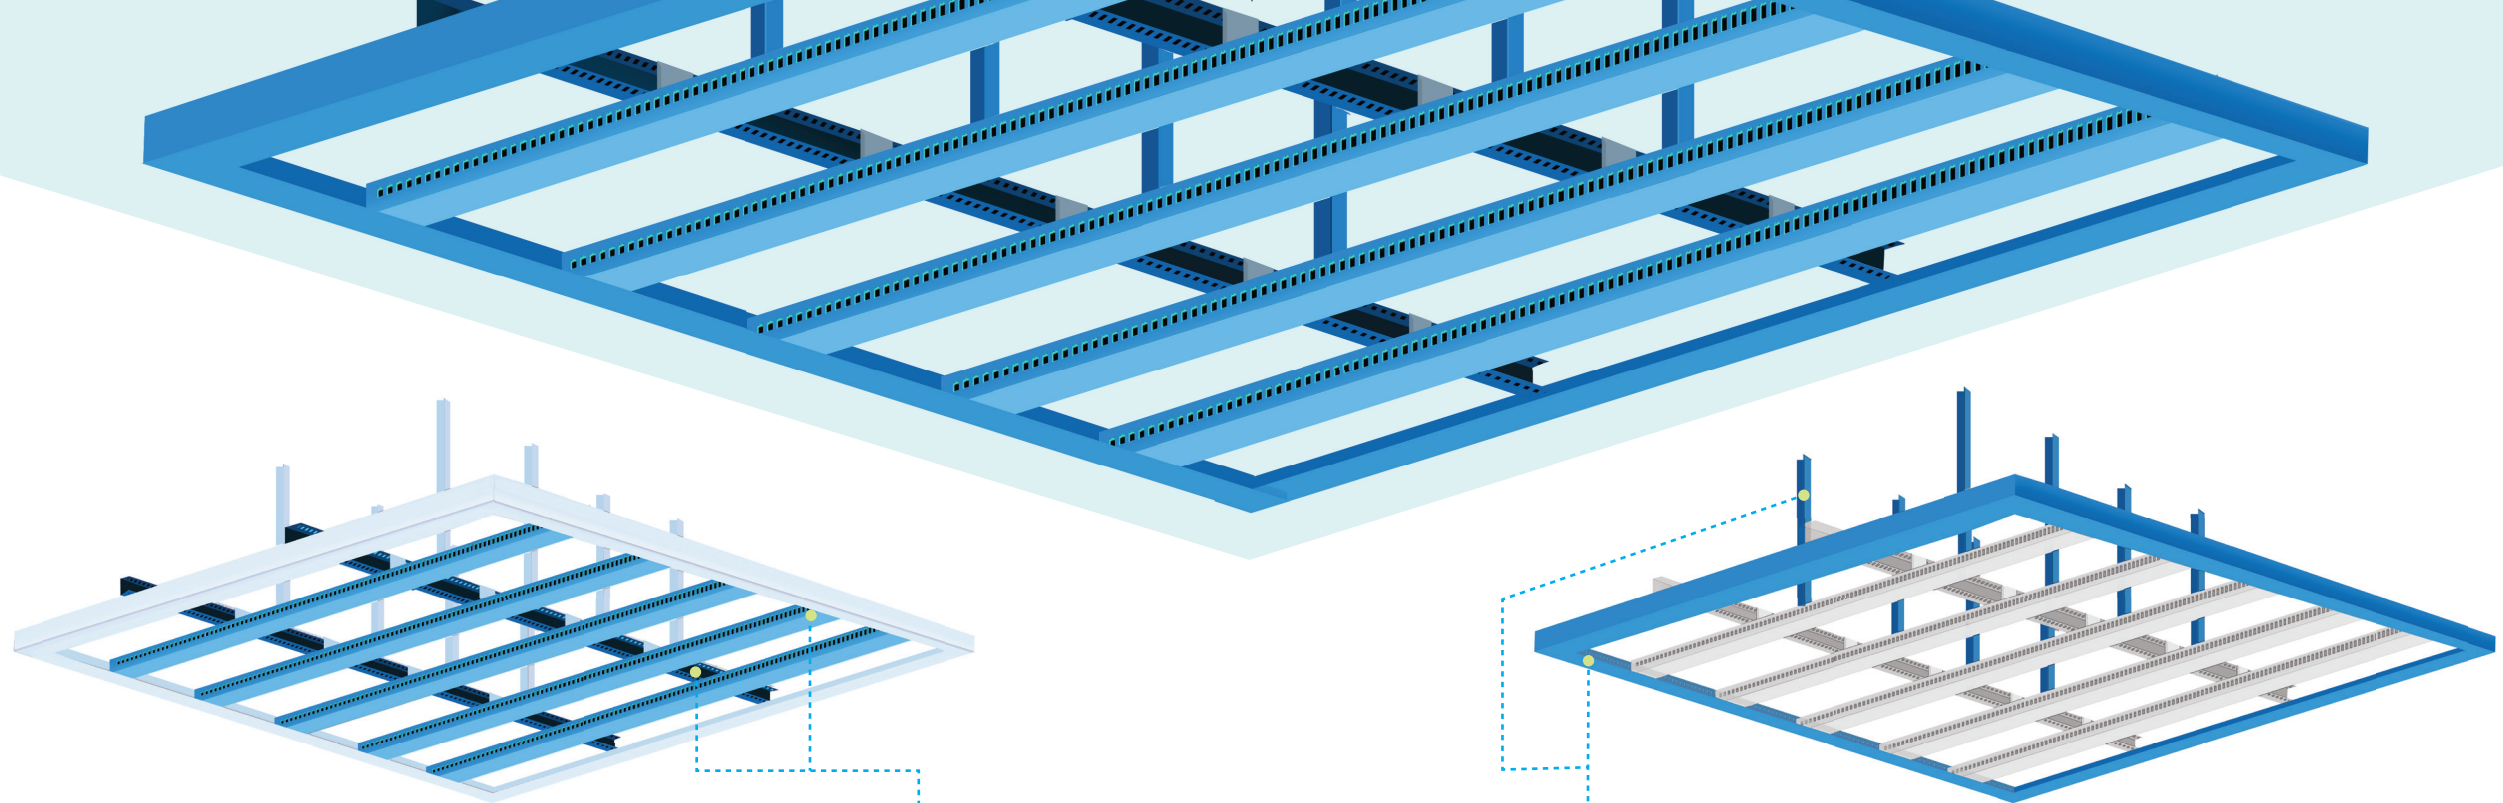

EXPERIENCE  
THE BLUE METAL TECHNOLOGY

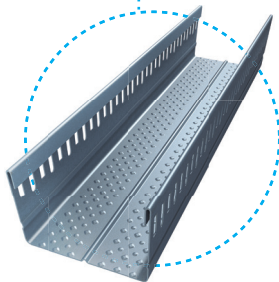

### GypFrame® PRIMA Master Section

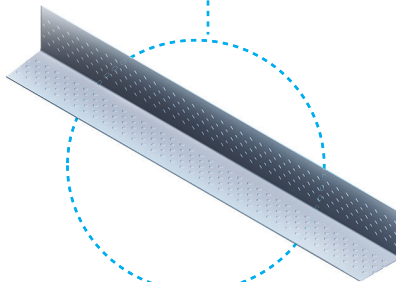

This unique section is used as the main support – i.e. Intermediate Channel as well as Ceiling Section.

Thickness	0.45 (mm)
Length	3660 (mm)
Dimensions	24 x 48 x 24 x 3660 x 0.45 (mm)
Base Metal	CR-1 & AZ 70
Finish	Tinted Blue

Interchangeable

Interchangeable

### GypFrame® PRIMA Master Angle

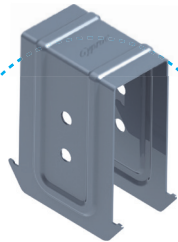

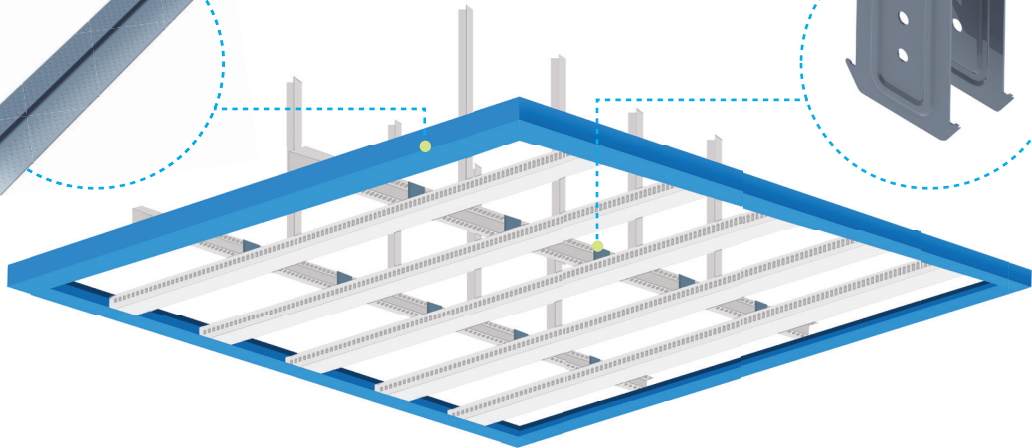

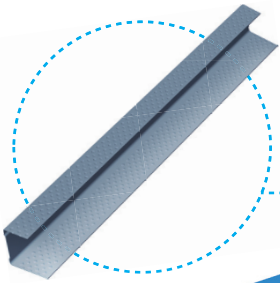

This unique section is used for taking support from soffit; as the size of both flanges is same, it can be used as Perimeter Section as well.

Thickness	0.45 (mm)
Length	3660 (mm)
Dimensions	25 x 25 x 3660 x 0.45 (mm)
Base Metal	CR-1 & AZ 70
Finish	Tinted Blue

### GypFrame® PRIMA Perimeter Section

This optional section is used to fix around walls/partitions and support ceiling at periphery.

Thickness	0.45 (mm)
Length	3660 (mm)
Dimensions	25 x 25 x 30 x 3660 x 0.45 (mm)
Base Metal	CR-1 & AZ 70
Finish	Tinted Blue

### GypFrame® PRIMA Coupling Bracket

This unique snap fit bracket is used for connecting 2 master sections (i.e. one as intermediate and other as ceiling section).

The unique click mechanism of the bracket helps in faster installation.

Thickness	0.8 (mm)
Dimensions	63.5 x 25.5 x 63.5 x 54 x 0.8 (mm)
Base Metal	CR-1 & AZ 150
